## Profile

I am currently a senior at Abraham Lincoln high school. I am currently enrolled in Business Academy. I volunteer for peer tutoring after school where I help students who need assistance in math. Responsibility for your own actions, respect for other's ideas, and cooperation are important when I work in groups. To ensure that I am responsible in my tasks, I practice effective time management skills. I exhibit respect during group work by listening to other's ideas and support them. Cooperation in groups help create a cohesive team to complete tasks quicker. My values are being honest, caring for others, and patience. An area I need to grow more on is challenging myself.

## Work Experience
